How to Use Pulfresh Ultra Alkaline Floor Cleaner

For Normal Cleaning

Dilution

Mix 50–100 ml cleaner in 1 litre of water (normal cleaning)

Application

Dip mop/cloth in the solution

Wring slightly and apply evenly on the floor

Scrub gently

Rinse (if required)

Dry

Allow to air dry or wipe with dry mop

For Tough Oil Stains

Apply directly on stain

Leave for 2–5 minutes (do not let it dry)

Scrub gently

Rinse (if required)

For food areas or sticky residue, rinse with clean water

Dry: Allow to air dry or wipe with dry mop

Precautions

Never use undiluted on wood, laminate, or delicate surfaces

Always do a patch test

Safety Instructions

Keep out of reach of children and pets

Avoid contact with eyes and skin

In case of contact, rinse immediately with plenty of water

Do not ingest; if swallowed, seek medical advice immediately

Use gloves while handling concentrated product

Do not mix with acids or other cleaners
