Pulfresh Multi Cleaner / All Purpose Cleaner

Direction to Use:

Pulfresh Multicleaner is a versatile cleaner designed to remove dust, grease, grime, and oil stains from multiple surfaces. Follow these directions to achieve the best cleaning results:

✓ Recommended Surfaces for Pulfresh Multi Cleaner Spray

✓ Safe & Effective On:

- Kitchen Countertops – Granite, Marble, Quartz, Laminates
- Stovetops & Gas Burners – Stainless Steel, Glass, Enamel Coated
- Ovens & Microwaves (Exterior) – Enamel, Stainless Steel
- Range Hoods & Chimneys – Metal, Glass
- Kitchen Tiles & Backsplashes – Ceramic, Porcelain, Glass
- Sinks & Faucets – Stainless Steel, Chrome, Porcelain
- Cabinet Exteriors – Wooden, Laminated, Metal
- Dining Tables & Kitchen Appliances – Plastic, Glass, Stainless Steel
- Refrigerator Exterior & Handles – Plastic, Metal

⊘ Not Recommended for:

- Unsealed or raw wood – May cause damage or discoloration.
- Natural stone (untreated marble, granite, or limestone) – May etch or stain.
- Aluminum surfaces – Prolonged contact may cause dullness.
- Painted surfaces – May cause fading or peeling over time.
- Electronic touch panels or screens – Avoid direct spraying; use a damp cloth instead.

Directions for Use (Spray Bottle)

◆ Regular Surface Cleaning (Tables, Cabinets, Sinks, Tiles & Floor Spot Cleaning etc)

- 1 Turn the nozzle to “Spray” mode.
- 2 Spray directly onto the surface from a distance of 15-20 cm.
- 3 Let it sit for 10-15 seconds to break down light grease and dirt.
- 4 Wipe with a clean damp cloth or sponge.

◆ Light Grease & Stains (Countertops, Tables, Stovetops, Ovens, Range Hoods, Chimneys, Appliances Exterior- Kitchen & Food-Contact Surfaces)

- 1 Spray generously on the greasy area.
- 2 Let it sit for 2-3 minutes to dissolve light oil stains.
- 3 Scrub lightly with a sponge or brush if needed.
- 4 Wipe off with a damp cloth or rinse for best results.
- 5 For food-contact surfaces, rinse with water.

◆ Glass & Mirror Cleaning

- 1 Spray a fine mist onto the glass
- 2 Wipe with a microfiber cloth in a circular motion
- 3 Buff with a dry cloth for a spotless shine.

**Always rinse
with water**

Important Note:

For food-contact surfaces like slabs, countertops, and cutting boards, always rinse with water after use to ensure no residue is left behind.

◆ Important Notes

Always test on a small hidden area before full application.

For food-contact surfaces, always rinse with clean water after use.

Do not mix with bleach or other chemicals.

Safety Precautions

-  Avoid spraying directly onto hot surfaces or electrical components.
-  Keep out of reach of children.
-  If it gets into eyes, rinse immediately with water.
-  Use gloves if handling undiluted cleaner for extended periods.

P8 Pulfresh All Purpose Cleaner

HOW TO USE

Clean

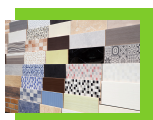

Disinfect

Floor Cleaning

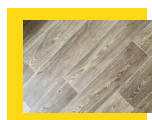

For low-soiled surfaces like floors & large open areas: Dose 50 to 75 ml of P8 into water and mix well. Dip & squeeze the mop before cleaning floors for excellent results. For effective germ kill all surfaces must remain wet for at-least 15 mins

For moderately soiled surfaces like kitchen & bathroom floors, etc.: Dose 150 to 175 ml of P8 into water and mix well. Dip & squeeze the mop before cleaning floors for excellent results. For effective germ kill all surfaces must remain wet for at-least 10-15 mins

SAFE TO
USE

Vitrified Tiles, Granite, Marble

Vinyl & Hardwood Floors

Ceramic Stone & Porcelain

Glass Cleaning

Simply spray on any glass surface and wipe off after 30 seconds using a clean damp cloth.

Small Surfaces

For Cleaning/Degreasing Small Surfaces such as bathroom fixtures, counter-tops, etc.: Mix 150 ml of product in 350 ml of water. Fill the prepared solution in a trigger spray bottle. Spray on the surface & wipe. For effective germ kill all surfaces must remain wet for 5-10 mins.

Removal of Oil & Grease Stains

For heavy-soiled/light grease/high-contact surfaces like kitchen platforms, doorknobs, handles, railings, elevator buttons, etc.: Apply undiluted. Spray surface until thoroughly wet. Leave for 5-10 seconds. Wipe or Rinse **gently** with a clean cloth or sponge. Allow product to sit to penetrate soil before wiping clean. Repeat if necessary.
To sanitize: Leave for 10 seconds before wiping.
To disinfect: Leave for 30 seconds before wiping.
For food preparation areas rinse the surfaces before use.

For older, dried oil stains, you might need to pre-treat the area by applying **undiluted P8** to the stained surface until thoroughly wet and let it sit for a longer period, possibly 10-15 minutes. Use a soft-bristled brush or sponge to **gently** scrub the area. Rinse and Wipe: Rinse the area with a little water if necessary, then wipe it dry. Repeat, if necessary.

Multiple Applications: Stubborn oil stains might require several applications of the cleaner
