

P10

PULFRESH

MULTIPLE DISINFECTANT FLOOR CLEANER

"Pulfresh P10: For a Freshness Phenyl Can't Match."

P10 Multiple Disinfectant & Cleaner for Hard Surface

Pulfresh P10 is a powerful, eco-friendly, and safe floor cleaner that provides a comprehensive solution for floor cleaning and disinfection. With its unique blend of pine oil and natural disinfectant oils, Pulfresh P10 offers superior cleaning power, long-lasting protection, and a refreshing fragrance much superior than Phenyl.

Pack Size
5 litre

Superior Disinfection

Combines natural disinfectants like pine oil, aloe vera, neem, and lavender oil with Benzalkonium Chloride (BKC) for enhanced antimicrobial protection.

Eco-Friendly Ingredients

Formulated with biodegradable, non-toxic components, making it safe for the environment and gentle on users.

Multi-Functional Use

Formulated with biodegradable, non-toxic components, making it safe for the environment and gentle on users.

"Pulfresh P10: Beyond Clean, Naturally Superior."

Safer & Superior Alternative to Phenyl

Pulfresh P10 Floor Cleaner offers several advantages over traditional phenyl, making it a superior choice for floor cleaning and disinfection. Here's a detailed comparison:

Enhanced Disinfectant Properties

Pulfresh P10: Contains natural disinfectants like pine oil, aloe vera, neem, and lavender oil, which are effective against a wide range of bacteria, viruses, and fungi. Additionally, it includes BKC (Benzalkonium Chloride), a proven antimicrobial agent.

Phenyl: Primarily relies on phenolic compounds, which may not be as effective as P10's advanced formulation against modern microbial threats.

Eco-Friendly Composition & Natural Repellent

Pulfresh P10: Utilizes citronella oil as a natural fly repellent and cleaning agents like citric acid, making it safer for the environment and less toxic.

Phenyl: Often contains synthetic chemicals that can be harmful to aquatic life and the environment when disposed of improperly.

Better Cleaning Efficiency

Pulfresh P10: Includes advanced cleaning agents like detergents and Laura Amine Oxide, which effectively remove tough stains and grime.

Phenyl: Primarily focuses on surface-level cleaning and may require more effort to tackle hard stains.

"Pulfresh P10: Smarter, Safer, and Stronger Than Phenyl."
