

# PULFRESH P 12

## Bathroom Cleaner for Hard Water

### Description

Pulfresh P12 is an acidic bathroom cleaner specially formulated for hard water conditions. It effectively cleans all bathroom surfaces, including sinks, tubs, wall and floor tiles, shower heads and fittings.

### Key properties

pH 3-4

Does not contain any abrasive, hence will not scratch bathroom surfaces

Pleasant musk and jasmine fragrance

Colourless transparent liquid

Used for cleaning bath tubs, wall & floor tiles, sinks, wash basin

### Benefits

- Effectively removes water stains, soap scums and mineral deposit
- Effectively removes rust from bathroom fittings
- Enriched with actives and chelating agents to control scale deposits, ensuring suitability for hard water conditions.
- Highly Economical
- Regular usage of Pulfresh P12 Bathroom cleaner and descaler prevents scale deposition on walls and fittings.

**Do not use on acid-sensitive surfaces. Rinse and dry hands after use.**

# How to use Pulfresh P 12

## For Normal Cleaning

Dilute 100 ml in 1 litre of water and apply evenly on bathroom tiles using a brush, sponge, or spray.

Allow it to act for 3–5 minutes to loosen stains, soap scum, and deposits.

Scrub gently for stubborn dirt.

Rinse thoroughly with clean water and wipe dry

## For Hard Stains & Deposit

Use undiluted for hard stains.

Allow it to act for 3–5 minutes to loosen stubborn stains, soap scum, and deposits.

Scrub gently as required, then rinse thoroughly with clean water and wipe dry.

## For Rust Removal

Apply directly to the rusted surface (use undiluted unless otherwise recommended).

Leave for 2–5 minutes to allow the rust remover to react and dissolve rust.

Scrub gently with a brush or pad for heavy rust deposits.

Rinse thoroughly with clean water.

Wipe dry to prevent re-rusting.

## Note:

- Do not allow the solution to dry on tiles.
- Test on a small area before use.
- Wear gloves during application.

This dosage is according to optimal conditions, recommendations may vary, please consult our sales rep.

## Product compatibility

Suitable for: Ceramic, glazed, vitrified, and porcelain tiles, bathroom wall and floor tiles.

Test before use on: Natural stone and decorative tiles.

Not suitable for: Marble, limestone, terrazzo, polished stone, and aluminium.
