PULFRESH P6

Anti Streak Glass Cleaner

Description

Pulfresh P6 is a ready-to-use, solvent-based glass and hard surface cleaner engineered for professional cleaning applications. Its advanced formulation combines fast-evaporating solvents with low-foaming surfactants to ensure efficient soil removal, rapid drying, and a streak-free finish, even on high-visibility surfaces.

Key properties

- Optimized Solvent Blend – Effectively dissolves oils, fingerprints, smoke film, and atmospheric soil
- Rapid Evaporation Technology – Minimizes wiping effort and prevents streak formation
- Low-Residue Surfactant System – Leaves no film, haze, or detergent build-up
- Neutral pH Formula – Safe for frequent use on delicate and coated surfaces
- Non-Abrasive Composition – Prevents scratching or surface dulling

Benefits

- Delivers clear, distortion-free transparency
- Reduces re-cleaning and labor time
- Maintains surface aesthetics in high-traffic environments
- Enhances hygiene perception in customer-facing areas

Compatible Surfaces

- Glass panels, windows & mirrors
- Display glass & showcase panels
- Chrome, stainless steel & aluminum trims
- Elevator interiors & partitions
- Laminates and glossy hard surfaces

Application Method

- Spray directly onto the surface or cloth
- Wipe using a microfiber or lint-free cloth
- Buff lightly for high-gloss surfaces

Safety & Handling (Professional Use)

- Ensure adequate ventilation during application.
- Avoid contact with eyes; in case of accidental exposure, rinse immediately with plenty of clean water and seek medical attention if irritation persists.
- Do not mix with other cleaning agents or chemicals to prevent hazardous reactions.
- Store in the original, properly labeled container, away from direct heat, sunlight, and ignition sources.

Why Professionals Choose Pulfresh P6

- Engineered for institutional cleaning standards
- Consistent performance with low consumption cost
- Suitable for HORECA, healthcare, retail, and corporate facilities
- Backed by Pulire's expertise in professional hygiene solutions

PULFRESH P 16

Premium Carpet Shampoo

Description

Pulfresh P16 Carpet Cleaner is a high-performance carpet shampoo formulated for deep cleaning and maintenance of all types of carpets and upholstery in commercial, institutional, and residential settings. It penetrates fibers to lift embedded dirt, oil, grease, and everyday stains, while deodorizing and revitalizing carpets without leaving sticky residues.

Key properties

pH 8-9

Does not contain any abrasive

Compatible with most synthetic and blended carpets when used as directed.

Benefits

- Reaches deep into carpet fibers to loosen and remove tough soil.
- Effectively tackles food stains, oil, grime, and light grease.
- Restores carpet appearance and texture
- Enhances carpet longevity with regular maintenance

Safety & Handling (Professional Use)

- **Controlled Formulation:** Designed with balanced detergency to ensure effective cleaning without damaging carpet fibers or backing when used as directed.
- **Material Compatibility:** Safe for use on most synthetic and natural carpets; spot testing is recommended before full application.
- **Low Residue Formula:** Rinses clean without sticky residues, reducing re-soiling and slip hazards after cleaning.
- **User Safety:** Avoid direct contact with eyes and prolonged skin exposure. Use gloves during extended or professional use.
- **Ventilation:** Use in well-ventilated areas, especially during machine or large-area cleaning.
- **Chemical Safety:** Do not mix with other cleaning chemicals or solvents.
- **Storage & Handling:** Store in the original, tightly closed container, away from heat sources and direct sunlight.
- **Professional Compliance:** Suitable for institutional and commercial housekeeping protocols when used according to recommended dilution and application guidelines.
- **Keep Out of Reach of Children.**

Why Choose Pulfresh P16

- Professional-grade carpet cleaning performance
- Deep penetration for effective stain removal
- Safe, residue-free results with minimal re-soiling
- Suitable for frequent maintenance in high-traffic environments
- Backed by Pulire's expertise in hygiene and cleaning solutions

How to Use Pulfresh P16 Carpet Cleaner

Preparation of the Area:

- Remove all furniture, rugs, and movable items from the carpeted area.
- Vacuum the carpet thoroughly to eliminate loose dirt, dust, hair, and debris. This step ensures that the cleaning solution penetrates the carpet fibers effectively without interference from surface particles.

Dilution of the Product:

- For regular maintenance, dilute P16 (100 to 500 ml in 1 litre of water) according to the soiled area
- For heavily soiled areas or tough stains, the product can be used undiluted to maximize stain removal and deep cleaning effectiveness, but rinse the surface well with water.

Application of Cleaner:

- Apply the diluted or undiluted P16 solution evenly over the carpet surface using a sprayer, brush, mop, or carpet cleaning machine.
- For large areas, work in sections to ensure uniform coverage. Avoid over-saturating the carpet to prevent prolonged drying times.

Soak and Penetration Time:

- Allow the solution to sit on the carpet for 5–10 minutes to penetrate deeply into the fibers.
- This dwell time helps dissolve embedded dirt, oils, grease, food residues, and other stains without damaging the carpet fibers.
- Dont let the solution dry on the carpet

Agitation for Tough Stains:

- For stubborn or set-in stains, gently scrub or agitate the area with a soft brush or carpet scrubber.
- Ensure not to damage delicate or natural fibers by using appropriate brush stiffness.

Extraction and Rinsing:

- Use a clean, damp cloth to blot small areas, or a carpet extractor/wet vacuum for larger sections.
- Remove the lifted dirt, oil, and cleaning solution completely to prevent residue buildup.

Drying:

- Allow the carpet to air dry completely before walking on it.
- For faster drying, improve air circulation using fans or open windows where possible.

Post-Cleaning Care:

- Vacuum the carpet again once dry to lift the fibers and restore a uniform appearance.
- Repeat cleaning for heavily soiled carpets or particularly difficult stains.
